

The group stage lists are now available! Please note that groups are subject to **change**.

If you notice any errors or inconsistencies, please contact us as soon as possible so we can make the necessary corrections.

Please also note that not all male players are participating in mixed doubles due to limited female participation. Mixed doubles pairs have been formed based on the order of registration — those who registered earlier were paired first, while later entries may not have a partner assigned.

In addition, some men's doubles players who did not indicate a partner might have been reassigned or moved to a different category in order to balance and complete the pairs.

Thank you for your understanding and cooperation, and good luck to all participants!!!
